M.Zanaen Ullah

Senior Software Engineer
Phone Number : +923394061600
Email : zanaenullah75@gmail.com
Location : Lahore, Pakistan

PROFESSIONAL SUMMARY

- 4 years of experience in web and mobille development with a focus on ReactJS, NextJs, React Native, and NodeJs.
- Proficient in ReactJS, NextJs and React Native.
- Management of multiple projects.
- Delivery of projects within timelines.
- Strong command of leading frameworks such as Next.js and Scrapy.
- Hands-on experience in mobile application development using React Native.
- Experienced in mobile, web, Python software, and GUI development using HTML, XML, CSS, JavaScript, Python Flask, and JSON technologies.
- Expertise in web development and web scraping with Node.js, ReactJS, and Python.
- Excellent knowledge and experience in Firebase Database, PL/SQL, MS SQL Server, MySQL Server, MongoDB.
- Good at understanding user requirements and system specifications.
- Payment Gateways Integrations.
- Google Maps API Integrations.
- Successfully managed over 20+ projects, including business and e-commerce applications.
- Independent understanding of the entire web-based architecture, including software development lifecycle.
- Expertise in integration environments for JavaScript and Python.
- Manage workflows via Jira, Asana, ClickUp, and update stakeholders via different tools like Monday.com, Confluence, and Trello.
- Experience working in various software methodologies like Agile, Waterfall, Scrum, and TDD.

TECHNICAL SKILLS

Languages	JavaScript, Python, ReactJS, React Native, NextJs, Tailwind, CSS, HTML
Frameworks	NextJS, Express, Bootstrap, Expo
Mobile Technologies	React Native, Kotlin
Web Technologies	HTML, CSS, JavaScript, REST APIs
Database technologies	MySQL, SQL Server, MS Access, Firebase, SQL Lite,Mongo DB
Package & Tools	GIT, GitHub, Gitlab, Repo, Bitbucket
Platforms	Linux, Windows, MacOs

PROFESSIONAL EXPERIENCE

WebSouls
Full-stack Developer
June 2023 - Present
Responsibilities:

- Designed and developed full-stack web and mobile applications using React.js for front-end and Node.js for back-end services.
- Developed cross-platform mobile applications using React Native, ensuring a seamless user experience on both iOS and Android devices.
- Implemented RESTful APIs and integrated third-party services to support dynamic data interactions and real-time features.

- Managed application state with Redux and ensured smooth data flow across multiple platforms.
- Optimized application performance through effective code splitting, lazy loading, and caching techniques.
- Built and deployed scalable, secure, and high-performance back-end systems using Express.js and MongoDB.
- Collaborated with design teams to translate UI/UX designs into functional, user-friendly interfaces.
- Followed Agile methodology, participating in sprint planning, reviews, and retrospectives to ensure on-time delivery of features.

WebSouls
React Developer
Apr 2022 – Jun 2023
Responsibilities:

- Developed dynamic, high-performance web applications using React.js and modern JavaScript (ES6+).
- Utilized Redux for state management, ensuring seamless data flow and efficient rendering of components.
- Built responsive, user-friendly interfaces with a focus on performance optimization and cross-browser compatibility.
- Collaborated with UI/UX designers to implement pixel-perfect designs, improving user experience and engagement.
- Integrated RESTful APIs and third-party services to enhance application functionality.
- Ensured code quality and maintainability through unit testing and code reviews using Jest and Enzyme.
- Participated in Agile development cycles, contributing to sprint planning, standups, and retrospectives.

WebSouls
WordPress Developer
Mar 2021 – Apr 2022
Responsibilities:

- Developed and maintained WordPress websites using popular page builders such as Elementor, KingComposer, and WP Bakery.
- Created custom plugins tailored to the solar industry, enhancing functionality and streamlining operations.
- Customized themes to meet client requirements, ensuring both design and performance optimization.
- Collaborated with cross-functional teams to deliver projects on time and within budget.
- Focused on delivering responsive, user-friendly websites with an emphasis on high-quality UX/UI design.

Background Skills: ReactJS, React Native, NextJS, Python, Javascript, JSON, MySQL, SQL, Node, Firebase, MonogoDB, Express, HTML, CSS, TailwindCSS

PROJECTS

- **Websouls**
  I developed this web applications using NextJS and integrating them seamlessly with WHMCS API for robust e-commerce functionality.Integrated Stripe and paypal payment gateways
  Technologies: NextJS , WHMCS, Stripe

- **WebSouls App**
  I developed this Mobile applications using React Native and integrating them seamlessly with WHMCS API for robust e-commerce functionality.Integrated Stripe and paypal payment gateways
  Technologies: React Native , WHMCS, Stripe

- **RoverIsland**
  E-commerce store from where users can cosmetics products and the store owner will deliver those products to users address, Features included are Add to Cart, Cash on Delivery, Phone Number Login and Authentication using Firebase.
  Technologies: NodeJS , ReactJS , Firebase, Google Signin, Twillio.

- **Clushsport**
  Custom Sport Kit Design store from where user can order the sports kits and modify the kits according to their needs like the club logo chaning shirt colots and many more, Features included are Custome Deign Kit, Add to Cart, Cash on Delivery, Phone Number Login and Authentication with Sql Database.
  Technologies:NextJS, NodeJS, Mongodb.

- **Embrace**
  I contributed to the development of Embrace.com, utilizing the MERN stack with a focus on backend and RectJS tasks involving Node.js and MongoDB. Worked on its mobile App too .
  Technologies: ReactJS, Reat Native, Node,Mongo DB , Firebase.

- **Humi Yumi**
  I contributed to the development of **Humi Yumi**, an online food delivery solution for the UAE market. The system included three mobile applications: **Customer, Force, and Partner**, along with an **Admin Dashboard** for managing operations. I worked on both the backend and frontend, ensuring seamless integration and performance optimization.
  Technologies**:** React Native, Next.js, Node.js, SQL.

EDUCATION:
ICS in Computer Science, 2019 - 2021
